

This is who we are:

- ▶ Founded in 1996 by Ralph and Karen Warnke
- ▶ Medical device manufacturer
- ▶ ISO-13485 certified
- ▶ Products Made in Germany

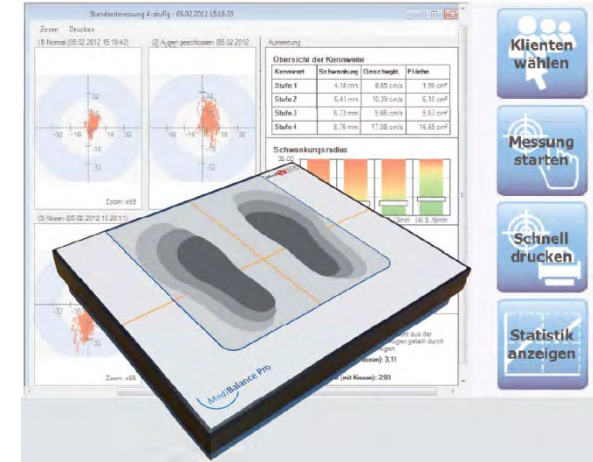

▶ 8 key product lines:

Line 1: MediBalance Pro

Line 1: MediBalance Pro

- ▶ Postural analysis
- ▶ Full training program to improve balance, posture and coordination
- ▶ Target groups: ENT, clinics, rehab, physical therapists, occupational therapists, athletes
- ▶ Vertigo issues, back pain, balance issues

Line 2: Brain Audiometer

Line 2:

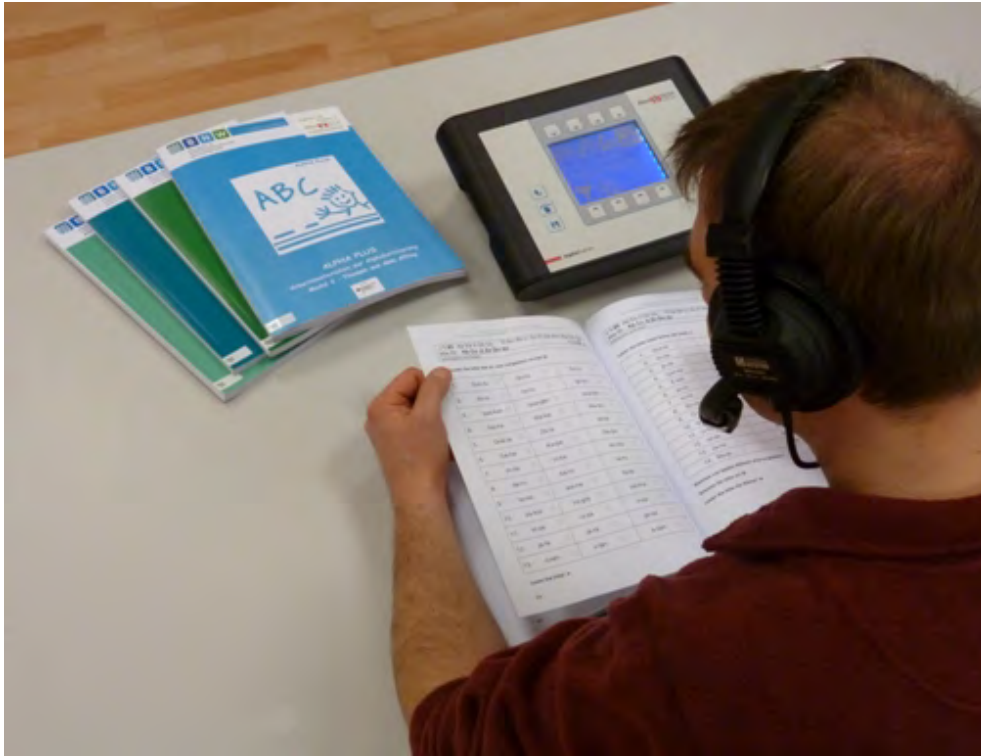

Brain Audiometer

- ▶ Analysis of Central Auditory Processing (CAPD)
- ▶ Available with norm data for children +5yrs up to adults / elderly people with hearing problems
- ▶ Target groups: ENT, clinics, acousticians, therapists, schools
- ▶ Attention, Learning enhancement, Auditory processing, hearing problems

Line 3: Speech and language training

Line 3:

Speech/Language training

- ▶ Effectiveness shown in fMRI research study
- ▶ Technology based smart brain training
- ▶ Target groups: schools, therapists, professionals dealing with dyslexics, ADD/ADHD, language learners, functional illiterates
- ▶ Unique language lab technology to facilitate brain processing of speech and more

Line 4: AUDECOM®

Unique hearing aids presenter

Line 4: AUDECOM®

- ▶ Presenting 3 pairs of hearing aids in a real 5.1 surround sound environment live and instantaneous
- ▶ Fully mobile audio sound lab with 5 speakers
- ▶ Client perceives differences in hearing aid technology simply by toggling in between three pairs with just one click
- ▶ Directional hearing, noise reduction and much more are easily perceived and understood by clients

Line 5: Measuring Physiology

Biofeedback/Neurofeedback

- Multi channel system
- Heart rate
- Respiration
- EMG
- Blood pressure
- EEG / SCP
- ...

Line 5: Measuring Physiology

Line 5: Measuring Physiology

- ▶ Analytical and training system
- ▶ Measures diverse physiologies to establish client status and requirements
- ▶ Target groups: medical doctors, psychologists, therapists, clinics, healthcare professionals...
- ▶ Provides various training options i.e. for migraine, ADD/ADHD, pain treatment, tinnitus and more

Line 6: ADScanner Objective ADD Screening test

Line 6: ADScanner

Objective ADD Screening test

- ▶ Objective indicator for ADD based on applying doppler radar technology
- ▶ Includes CPT performance test and questionnaire
- ▶ Full report on ADD screening assessment
- ▶ Target groups: child psychiatrists, clinics, ADD centers

Line 7: treating tinnitus

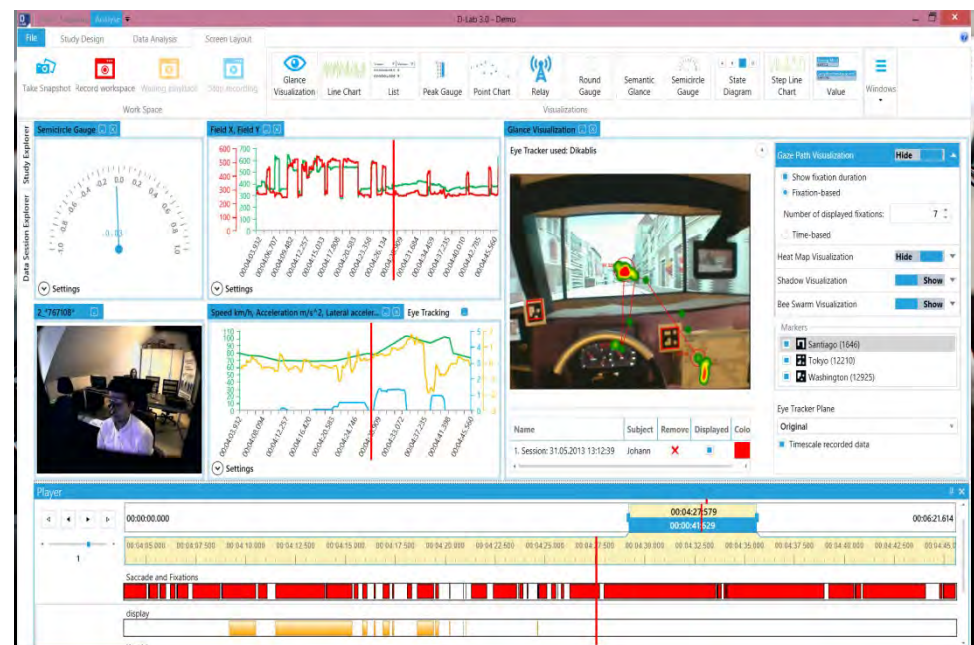

Line 7: treating tinnitus

- ▶ Analysis allows to acoustically re-engineer the patient's tinnitus signal
- ▶ Smart auditory neurostimulation allows the client to reduce tinnitus impact
- ▶ Target groups: ENT, clinics, rehab, therapists, healthcare professionals, patients

Line 8: Eyetracking

Line 8: Eyetracking

- ▶ professional analysis of eye movement and vision range
- ▶ Fully mobile and versatile hardware solution
- ▶ Powerful software analysis tool (DLAB)
- ▶ Target groups: Professionals in
 - Sports peak performance
 - Research studies at universities
 - Market research and analysis
 - Automotive and transport industry

We help people.
